

LECTURE

“Increased Competitiveness through Sustainable Development—Sweden's EU Presidency Priorities - and How Science Can Solve Some of These Issues”

Wednesday, Dec. 9th, 2009

2:00 - 3:30 pm

**FIU—Modesto A. Maidique Campus
Green Library—GL 220**

Magnus Härviden

**Science Counselor and Head of Office of Science
Embassy of Sweden—Washington D.C**

Magnus Härviden is since September 2006 the Science Counselor and Head of the Office of Science at the Embassy of Sweden in Washington D.C. During this period, he has primarily worked with policy intelligence for the Swedish Government and different ministries and government agencies in areas encompassing ICT, space research, globalization and national competitiveness issues, research policies and Swedish-American co-operation in research and economic development related areas.

Magnus has a Master of Science in Electrical Engineering from the Royal Institute of Technology (KTH) in Stockholm, and Institut National des Sciences Appliquées, Lyon, France. He has also studied Russian language at Stockholm University and Chinese language at Lund University. Before coming to the Embassy, Magnus has had different management positions in private sector and public sector both in Sweden and in France, including working for the management consulting firm Accenture, in an advisory body to the Swedish government as an expert on electronic commerce and as the Swedish Trade Commissioner to France.
