An FIU Teach-In:

Approaches to Haiti Relief and Reconstruction

SATURDAY, MARCH 6, 2010 | 1 PM - 4 PM

FIU Modesto A. Maidique Campus, Rafael Diaz-Balart Hall Auditorium (College of Law)
11200 SW 8th Street, Miami

As part of FIU's long-term commitment to Haiti's recovery, the School of International and Public Affairs (SIPA), in conjunction with the Latin American and Caribbean Center (LACC), is hosting its second teach-in on the crisis.

Featuring:

Robert Maguire, Associate Professor of International Affairs, Trinity University, Washington DC.

Dr. Maguire's presentation, "Rebalancing Haiti in the Earthquake's Aftermath," will elaborate how Haiti became a country out-of-balance, moving from an agrarian society to one with widespread urbanization with unmitigated migration to Port-au-Prince. Ideas and options for Haiti to regain and enhance its social, economic, environmental, political, and demographic equilibrium will also be presented.

The teach-in also features:

- **Chantalle Verna** (FIU Dept. of History & Dept. of Politics & International Relations/SIPA)
- **Anthony P. Maingot** (FIU Department of Global and Sociocultural Studies/SIPA)
- **Brooke Wooldridge** (FIU Digital Library of the Caribbean, LACC/FIU Libraries)
- **Pilar Martin** (FIU College of Medicine)
- **Marie Etienne** (Miami-Dade College, School of Nursing)
- **Jean-Francois Gervais** (Absolute-IDEA Engineering and Architecture)

For more information, contact SIPA at **305-348-7266**.

The event is free and open to the public. Parking is available in Lot #9, adjacent to the College of Law.
